

The toolbar

Note: The toolbar contents are different for each app. The following is a schematic representation.

The toolbar

Content

- Buttons for creating new objects, e.g. a new email or a new contact.
- Buttons or icons for editing objects.
- Depending on the app, further app specific buttons or icons might be available.

- **Actions** icon. Contains app specific functions for organizing objects.
- **View** button. Contains functions for controlling the layout in the display area and for opening or closing the folder view.
